

## **INTERNET SAFETY POLICY**

### **I. Introduction**

The Navigator Pointe Academy Board recognizes the need for a policy governing the inappropriate and appropriate usage of computers and network resources. This technology includes digital hardware, software, local and wide area networks and access to the Internet. Due to the complex nature of these systems and the magnitude of information available via the Internet, the Board believes guidelines regarding acceptable and appropriate use are warranted in order to serve the educational needs of students. It is the intent of the Board to establish guidelines to (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent of unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and Utah State Uniform School Code]; and (e) establish acceptable use of computers and network resources to best meet the educational needs of students and staff

#### **A. Key terms in the Children's Internet Protection Act (CIPA)**

1. Access to Inappropriate Material - To the extent practical, technology protection measures (or Internet filters shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.
2. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes. To the extent practical, steps shall be taken to promote the safety and security of users of the Navigator Pointe Academy online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.
3. Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called "hacking" and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

## **B. Children's Internet Protection Act (CIPA) DEFINITION OF TERMS:**

1. TECHNOLOGY PROTECTION MEASURE. The term "technology protection measure" means a specific technology that blocks or filters Internet access to visual depictions that are:
2. OBSCENE, as that term is defined in section 1460 of title 18, United States Code;
3. CHILD PORNOGRAPHY, as that term is defined in section 2256 of title 18, United States Code
4. HARMFUL TO MINORS. - The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:
  - a. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
  - b. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals
  - c. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
5. SEXUAL ACT; SEXUAL CONTACT. - The terms "sexual act" and "sexual contact" have the meanings given such terms in section 2246 of title 18, United States Code.

## **II. ADMINISTRATION**

Navigator Pointe Academy shall have a technology protection measure (filter) in continuous operation, with respect to any computers belonging to the school having access to the Internet. Procedures for disabling or otherwise modifying any technology protection measures shall be the responsibility of the School Director.

### **A. Appropriate Use of Computers and Network Resources**

1. A qualifying "technology protection measure," as the term is defined in Section 1703(b)(1) of the Children's Internet Protection Act of 2000
2. Procedures or guidelines developed by the School Director and/or other appropriate personnel which provide for monitoring the online activities of users and the use of the chosen technology protection measure to protect against access through such devices to visual depictions that are (i) obscene, (ii) child pornography, or (iii) harmful to minors, as those terms are defined in Section 1703(b)(1) and (2) of the Children's Internet Protection Act of 2000. Such procedures or guidelines shall be designed to:

- a. Provide for monitoring the online activities of users to prevent, to the extent practicable, access by minors to inappropriate matter on the Internet and the World Wide Web;
- b. Promote the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;
- c. Prevent unauthorized access, including so-called "hacking," and other unauthorized activities by minors online;
- d. Prevent the unauthorized disclosure, use and dissemination of personal identification information regarding minors; and
- e. Restrict minors' access to materials "harmful to minors," as that term is defined in Section 1703(b)(2) of the Children's Internet Protection Act of 2000.

3. The school's technology resources are provided for educational purposes that promote and are consistent with the instructional goals of Navigator Pointe Academy. Use of computers and network resources outside the scope of this educational purpose is strictly prohibited. Students and employees accessing network services or any school computer shall comply with the school's appropriate use guidelines.

The school reserves the right to monitor, access, and disclose the contents of any user's files, activities, or communications.

4. It must also be understood that the Internet is a global, fluid community, which remains largely unregulated. While it is an extremely valuable tool for educational research, there are sections that are not commensurate with community, school, or family standards. The school will provide an Internet screening system which blocks access to a large percentage of inappropriate sites. It should not be assumed, however, that users are completely prevented from accessing inappropriate materials or from sending or receiving objectionable communications.

5. Access to the Internet and computer resources is a privilege, not a right. Therefore, users violating the school policies related to the appropriate and acceptable computer use policy shall be subject to revocation of these privileges and potential disciplinary action.

## **B. Inappropriate Network Usage Supervision and Monitoring**

1. Navigator Pointe Academy employees have a responsibility and obligation to take all reasonable measures to protect children and provide a safe online environment.

2. Internet safety training is to be provided to minors that address:

- a. Appropriate online behavior
- b. Cyberbullying awareness and response

c. Social networking sites

d. Chat rooms

3. It shall be the responsibility of all Navigator Pointe Academy staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and the Children's Internet Protection Act. Staff members will receive annual summer in-service instruction regarding routines and procedures for supervising and monitoring student computer use.

4. Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the School Director or designated representatives.
